WORK EXPERIENCE

BioAnalytiX

Website: https://bioanalytix.info/   **12/2023 - present**

Co-Founder & Chief Researcher

- Working with other co-founders to develop an advanced medical imaging software to assist radiologists in detecting anomalies and generating reports.
- Led a small team of researchers setting up the theoretical principles of the start-up's projects, also played an important role in a strategic partnership with the General Hospital of Larissa.

Partnership with:

- University of Thessaly
- General Hospital of Larissa

Awards:

- Ennovation 2024 - 1st place in the Young Enterpreneurship category

Menta Taste & Cocktails - Pefkochori, Chalkidiki

Bartender/Barman

7/2022 - 8/2022

- Successfully navigated high-pressure situations, performing multiple tasks simultaneously, such as mixing complex cocktails, taking orders, and serving customers.
- Achieved excellent collaboration with co-workers, ensuring fast and high-quality customer service.

PROJECTS

- **Bachelor's Thesis in Linux Memory Management**

  Supervised by Prof. Margaris Athanasios

  Detailed analysis and description of the memory management system of the latest version of the Linux operating system kernel.
